Call for Abstracts

XXIX SIDUO CONGRESS

DEADLINE: JUN·30·24

General Guidelines

- The online abstract submission for XXIX SIDUO Congress is open and **will close on June 30, 2024.**

- All submissions must be made online by the deadline, to the e-mail **info@siduocolombia.com**

- The SIDUO **does not pay honoraria or travel/housing expenses** for any presenters at the annual meeting.

- The Academic Committee will notify all presenting authors of the **status of submitted abstracts by email.**

- Accepted abstracts may be **scheduled according to the topic.**

- **Case reports** are accepted for review. If the abstract reports on a single case study or is a video abstract, the headings are not required.

- Submission of an abstract constitutes a commitment by the instructors/authors **to present if selected.**

- All poster presenters are required to **upload an electronic poster** before the meeting.

- The panel will select the **BEST paper for each session** and announce it at the end of the session.

Abstract Requirements

Abstracts will only be taken into consideration if they are **written in English** and do not exceed the **maximum of 300 words** (not including title and authors).

Only original research, case reports, and systematic reviews will be considered.

a. Topics

- **Standardized ultrasound**
- **UBM**
- **Doppler Ultrasound**
- **Biometry**
- **Multimodal images**
- **Radiology**
- **Innovation**

b. The Lead Author must be assigned for each abstract submission:

· This individual is the first author listed on the submission and has the primary responsibility for communications with the SIDUO 2024 Academic Committee.

· They are responsible for ensuring all co-authors and company sponsors approve the submission, publication, and potential presentation.

· They will deliver the oral or poster presentation if the submission is accepted. The lead author should be comfortable to present and answer questions in English.

c. Abstract Layout

Title	The title of the research work should be clear and contain the necessary information to make the classification of the article possible. **The title of an abstract may be at most 120 characters.**
Authors	**You must provide all the following details for each author:** · Full name · Institutional Affiliation
Introduction	Give background information that is useful for introducing your research and makes it clear to the reader why you are asking the research question. The research question or aim of the study should be stated as either a **question or a hypothesis.**
Methods	The study design, including both independent and dependent variables and the use of statistics.
Results	Describe the results obtained based on the research or study question and use statistics.
Discussion	**The answer:** give a clear summary of the outcome of the research or study question. If important for your research, state some conditions that could have influenced your data. Keep it as concise as possible. It is of great importance to state the **implications or relevance** of your research or study.

WORD LIMIT: 300 WORDS
